Founded in 2018, Copper Mountain Energy, a Vietnam-based firm specializes in investing and developing renewable energy projects. It is an objective of the CME to provide and manage our resources and activities to ensure that a high-quality service is always offered.

We are committed to implementing appropriate Quality Management Systems and processes to enable us to deliver the highest practicable quality services. We will therefore:

- Work closely with our customers, suppliers, and partners to achieve business and quality objectives
- Satisfying applicable statutory and regulatory requirements
- Deliver services of the highest practicable quality, reliability and consistency that meet the requirements

We will develop and implement an appropriate quality management system that addresses the following elements:

- **Quality Management** - ensuring a formalised and pro-active approach to systematic business management. It will include a statement of quality policy defining the company's fundamental approach to managing quality. It will be based upon common principles and provide a basis for continual improvement.
- **Quality Responsibility** - ensures that all related parties in the quality process of the business has clearly defined the responsibilities.
- **Quality Priority** - ensures that it is recognised that quality issues do not take precedence over health, safety, or environmental issues, rather that the quality management system actively supports those issues.
- **Quality Objective** - ensuring that the principal quality objective is to set the standards that will deliver a consistently high quality of work throughout the company thus ensuring customer satisfaction and continual improvement in the level of service provision.

Within the operation of the Quality Management System, CME will ensure that:

- **Training** - Appropriate training is provided to all those involved in the operation in support of the Quality Management System.
- **Quality Improvement** - All staff are actively encouraged to propose solutions to improve both the Quality Management System and the quality of service delivery within the company.

Establish and measure performance and customer satisfaction against appropriate quality objectives and/or targets. The QA/ QC Manager shall carry out regular audits of our work activities to check they are being carried out within the requirements of the Quality Management Plan. Improvement actions shall be issued when required.

This policy shall be reviewed periodically, taking into account the views of customers, employees, and those who work with us.

**CEO**
